

A long time ago, the entire country abandoned my family. When we reached out to the mainstream media and so-called conservative pundits, we were ignored. Typically, the federal government would provide aid after monetary payment was secured. Humanity's conscious pride, greed, lust, & cowardice closed the door on my faith in mankind. It left an empty space for Someone else to fill. God showed His absolute power. Let me tell you about how God denied the laws of the universe that He created. Allow me to explain how my grandfather was raised from a foul-smelling death of six hours.

I've looked the other way many times and it has reminded me of the disgrace that I have been forgiven for. This is a fray that I, as an individual, did not want to march into. I know I refuse to make that mistake again. God is calling us to travel another Ninnevah and march around a modern day Jericho. Satan has invaded our country and world. The bastard has taken the form of toxic leftism and fake conservatism; accusing everyone of everything before God's throne; much like the account of Job.

Look onto my family's story and bear witness to the majestic and absolute dominance and jurisdiction of humanity's God: Christ. As a child, I asked God for comic-book style superpowers because I wanted to serve others and show them that anything is possible. I asked God to humble me and show me why people fall so that God can lift them up with my hands. I asked for this after my "protestant" baptism. I did that after I stood with Jesus Christ outside the Gates of Heaven. He smelled like frankincense. (I connected that after using the incense for the last time when I was sick in December 2022).

I begged God to save my family and He multiplied \$6,000 into \$90,000. He resurrected my grandfather, reversing rigor-mortis and the biological decay of death. My mother asked the crippled she brought into our house (when I was a young child) to be healed. Time after time, I watched with my own eyes as crooked limbs became straight.

I know of corruption. I saw as a little child how my family was torn apart because my maternal grandfather had dirt on 9/11. My grandfather is dead and my mother has painful metal in her because of it. But in spite of that, God shined through and saved us. Where man failed, God covered us with his grace and power. Though, my heart weighs heavy for my mother: Her health troubles are because she knows she cannot ignore this generational curse of objective truth ignorance. I wonder how much longer my family can go with being in denial.

I've faced death many times yet, here I stand. I have faced the face of Satan and looked upon the eyes of Jesus Christ. When you witness such overwhelming power, you realize anything is accomplishable.
